

Dear Susan

We have been advised that wpd has withdrawn its appeal to the Court of Session against the rejection of its planning application for an industrial wind farm on Beinn Mhor. Clearly wpd has recognised that the appeal was going nowhere and decided to cut its losses. **At long last, this should be the death knell for the proposed Beinn Mhor Wind Farm.**

Coming a few days after we heard that ABO is abandoning its proposed Allt Carach development at Erchless/Breakachy along Strathglass this is brilliant news and a real Christmas present for us all.

Now we need to stop the proposed Cnoc An Eas development in Glenurquhart!!

We thank you all again for your support and wish each and every one of you a very Happy Christmas and a happy, healthy and successful 2016.
